

# To pair or not to pair

...

Fee Braun ♦ Software Engineer ♦ eBay GmbH

What does pairing mean?

# Pair programming at eBay - our rules

# Pair programming in the daily business

Benefit: Knowledge Sharing

Benefit: No code reviews

Benefit: Learning by doing

Benefit: Finding the best solution

# Limits

Limit: Not every story is suitable

Limit: Team structure

# Challenges

Challenge: Observer needs to be  
active

Challenge: Senior vs. Junior /  
Backend vs. Frontend

Challenge: Mindset

Challenge: Tools

How to make it successful?

How to decide?

Just try!

Thank you!
